# A solid expertise

a passion that defies time

## 50 years of innovation and tradition

Since 1964 our professionals have offered meticulously designed products as well as a customer service based on the highest respect of our clientele.

## Our expertise: experience and knowhow

From design to finished product, the highest performance results are always an absolute requirement for us. Many of our products even surpass industry standards. This capacity for exceeding set standards is one of the pillars of our excellent reputation.

## Our passion: to design and manufacture masterpieces

Refinement, distinction, superior quality finish and design are the reflection of our continued pursuit for innovation and improvement.

## Your pride: our reward

Your pride is the reward that allows us to continue our work. In order to delight you, our sales and customer service team guides you through the entire purchasing process.

## The Martin difference

an offer without compromising on...

Sustainable and aesthetic value

Secure and personalized purchasing experience

Simple and honoured warranty

Environment protection

5

## The distinctive features

of Martin wood products

An elegant and sophisticated design

A rigorous assembly to ensure solidity and durability

An unrivaled quality of finish

Superior quality within your reach

# Interior Finish

equal to high end furniture

## **Enhances and protects the wood's beauty**

Wood is a natural, warm and versatile material. Careful protection by a quality stain enhances its resistance and durability.

## **Unequaled protection against the weather and UV rays**

Our stain acts like a shield. The stain's natural oils and resins seep into the wood's cellular structure for a durable protective barrier.

## **Water-based stain: one more step for protecting the environment**

With the introduction of water-based stain products, Martin is not only a forerunner but also a company that continues its efforts for sustainable development.

# 15 Exceptional colours

a touch of unequaled refinement

Our colour chart offers 15 lovely colours that enhance the wood's natural richness. Factory applied, our stain is protected by two coats of varnish giving it a satin sheen.

The colours may vary slightly due to the printing process. Check our samples at your Martin distributor.

# Aluminum extrusions

durability and easy maintenance

Combine the solidity of exterior cladding with the beauty of the interior wood.

The thickness of our extrusions is considerably superior to the aluminum sheet offered on the market.

Easy maintenance and corrosion resistant.

Recyclable: an advantage for the environment.

## Unlimited choice of colours

Our extrusions are painted with 3 coats of top quality acrylic polyurethane paint. They are then oven baked for a high quality and resistant finish.

### *Standard colours:*

**White**

**Commercial brown**

**Ivory**

**Sandlewood**

**Black**

### *Optional colours:*

We are able to make any colour you choose.

Actual colours may vary slightly due to the printing process. Check our samples at your Martin distributor. The entire line of wood windows and doors is offered with extruded aluminum cladding option.

# Energy Efficiency

The best performance for energy efficiency

Combining an innovative glass unit and an ultra-efficient spacer reduces energy consumption. This is one of two key elements in a window's overall performance.

## Insulating glass

The **Sungate<sup>MD</sup> 400 LowE and argon** energy efficient glass unit increases your comfort in many ways. This superior quality glass keeps you warm during winter's cold nights and cool during the hot summer days. It also, while allowing in the benefits of natural light, ensures a high level of energy efficiency.

## Spacer

The best warm edge spacer in the world: **Swisspacer Ultimate**

It has the best thermal value in the world with a 20% reduction in thermal conductivity compared to other products now available on the market.

**SWISSPACER**

**ENERGY-SAVING**  
DUE TO THE BEST THERMAL  
VALUES IN THE WORLD

**COMFORTABLE**  
DUE TO THE HIGHEST  
SURFACE TEMPERATURES

**AESTHETIC**  
DUE TO ITS SATIN-FINISH SURFACE AND  
THE GREATEST VARIETY OF COLOURS

COMPARED THERMAL CONDUCTIVITIES

Please consult our website [www.windowmartin.com](http://www.windowmartin.com) for more information on our performance results.

# Structural performance

that passes the test of time

Structural performance is the other key element in overall window performance. It depends on the precision with which the wood parts are machined and how meticulously they are assembled. The performance is measured by air and water tightness as well as wind resistance.

## Our quality of assembly

At Martin, we pay very particular, even maniacal attention, to details to ensure the best protection against air and water infiltration. This is why we chose a modular assembly ensuring that all our products have a superior stability and tightness. Consequently our products' overall performance exceeds the industry's highest standards.

The rigidity and sturdiness of Martin products provide for much more stable operation and ensure long term protection against air and water infiltrations.

# Martin Wood Windows Collection

## Casement and Awning Windows

An icon window which has stood the test of time. Our continuous improvement process allows it to blend to any style of decor whether it's contemporary or traditional. Their sturdy hardware has a folding inset handle and multi-point lock anchored in three places to offer security and solidity. Equipped with superior weatherstripping, they offer maximum air and water tightness. Lastly, they offer the possibility of a triple glaze insulated glass unit for unequalled energy efficiency and soundproofing.

3 anchor multi-point lock and sturdy mechanism with inset folding handle

5 available colours

**White** (standard)

**Coppertone** (standard)

**Dark bronze** (optional)

**Black** (optional)

**Aluminum** (optional)

## Hung Windows

This traditional English style window stands out for its elegance and unequalled air and water tightness. This wood hung window is the most watertight on the market. Single or double hung, it remains the reference for architects. Its unique design maximizes the wood visible surface. The handling of the sashes is smooth and easier for maintenance.

Built-in locks and  
discreet hardware

4 available colours

**White** (standard)

**Coppertone** (standard)

**Bronze** (optional)

**Dark bronze** (optional)

# Martin Wood Windows Collection

## Ancestral Windows

The perfection of the French heritage window; it stands out with its centered cremone, its closure overlap and its sturdy recessed hinges. It blends the old world charm with contemporary performances. It represents a real revolution in terms of tightness in the niche of inswing opening windows.

Traditional  
cremone  
(standard)

Contemporary  
cremone  
(optional)

## Lift and Slide Patio Doors

Our distinctive feature: a smooth sliding without comparable on the market. They have a unique, European style operating mechanism. This lift and slide system ensures optimal smooth sliding, a tight seal and thermal value. Our patio doors offer up to 16 feet wide with 2 fixed side panels and 2 operating center panels. Again, Martin patio doors offer 2 1/4-inch thick wood panels.

17

### Innovative mechanism

Unique operating mechanism hardware offered in 3 colours: dark brown, silver and white.

# Martin Wood Doors Collection

## Folding Doors

This door, called the Diamond, deserves its name: this innovative door is the most air and watertight in North America. It combines the Martin team's knowhow with the originality, solidity and durability that you expect. Its unmatched air and water tightness is achieved by a multi-point lock anchored in 5 places as well as triple weatherstripping.

This folding door is offered up to 16 feet wide with 7 panels. As with our other doors, it is equipped with 2 1/4-inch thick wood panels and a sill with a double drainage system. Opening the panels is effortless since they rest on the sill. Obviously, this door's security is a credit to the Martin collection. As an option, we can offer an innovative retractable screen.

Hardware is available in 2 colours: dark brown and silver.

## Balcony Doors

The charm and elegance of the past without compromising comfort and security. In harmony with our ancestral window, it offers the same features as other Martin doors.

### Our high performance doorsill

A unique doorsill designed by our experts for an unmatched performance on the market. It combines a double system for optimal water evacuation and an insulating profile of reinforced PVC.

This sturdy, air and watertight sill is also clad in champagne-coloured anodized aluminum which blends well with all our stain or aluminum cladding colours.
