Dual Pane & Triple Pane

Glass is the main element in your windows and should be carefully considered when purchasing windows. Dual pane is made of 2 single panes separated by an insulating chamber providing comfort. Triple pane units add a secondary insulating chamber by using a third glass pane for added insulation and comfort.

*These glasses essentially meet the criteria of the regions where this is required by regulations (Ex.: Ontario) / ** Only available for EcoNova products.

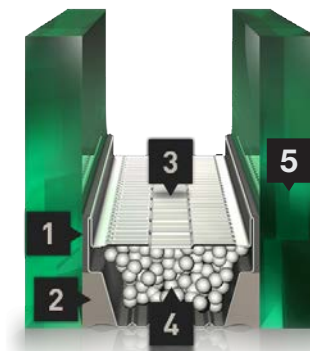

We're Energy Star®

Energy Star® Laflamme windows and doors will allow you savings that could reach 12%. There are many more advantages in the quality of these products: better comfort, less noises coming from the outside and less condensation than the traditional models.

Endur IG™ Design The spacer bar with the industry's lowest failure rate

- 1 Primary seal (PIB)
- 2 Secondary seal (silicone)
- 3 Thin gauge stainless steel
- 4 Desiccant filling
- 5 Pane of glass

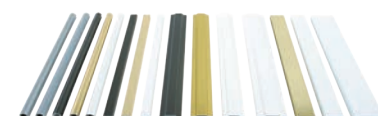

Colours & Stains

Laflamme products provide you with colour that lasts. Our unique process bonds colour to the surface at a molecular level, ensuring stable, vibrant colours that do not fade over the years.

Grilles

Our timeless grilles add beauty to your windows while keeping them easy to clean and maintain. For the ultimate in elegance, round out your home's appeal with SDLs.

PROUD MEMBER OF

laflamme.com

LAFLAMME was **the first major Canadian window manufacturer to offer PVC windows and patio doors**. Unlike other materials, PVC is virtually maintenance-free. It requires no painting and is energy-efficient, sealing your home against any kind of weather.

Our **EcoNova hybrid windows** have **revolutionized the market** thanks to their superior energy efficiency and contemporary style frames that feature 90° angle joints. Moreover, they were specifically developed in accordance with the new, increasingly stringent industry standards.

With its rich, inviting warmth and superior thermal insulation, wood is a natural choice for a beautiful home. **Laflamme builds on nearly 70 years of experience** in manufacturing superior wood products for lasting beauty both inside and out. Products available in wood finish (interior and exterior) or wood with exterior aluminium clad.
