

# SERIES 1400 & SERIES 1500

## CASEMENT & AWNING WINDOW SYSTEMS

Peace of mind is invaluable. When you know your windows will stand up to hurricane-force winds while withstanding impact, you have the security and satisfaction of knowing the value of your investment. The first vinyl window design to have earned a performance rating in the highest classification defined in the window industry.

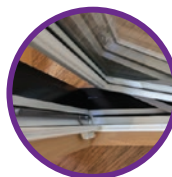

Sturdy German Engineered systems manufactured in Canada

Fusion welded vinyl chambers and Shadow grooved welds for strong and beautiful seamless corners

Co-Extruded PVC Triple Seal; primary, secondary and weather sweep

Stainless steel multipoint hardware and metal hinge-side catches and sash lift for long-term ease of operation

Clean white nesting handle and strong-arm locking handle hardware package

Pinless, pressure mounted screen with mitred corners

## Casement

side hinge with 90 degree operation for full access cleaning and ventilation

## Awning

bottom hinge for lower draft ventilation with multi-point locks on both sides

## Sash Set

compliments casement and awning profiles for consistent sight lines and exterior appearance

## Direct Set

a low profile picture window for an expansive view
